Unique Timber Technology for Luxury Living Spaces

Designed in the US by Louisiana-Pacific Corporation – one of the biggest global producers of Orientated Strand Boards (OSB), LP SmartSide™ is a stylish engineered wood panel that looks and performs better than timber.

**10-Year
Limited
Manufacturer's
Warranty**

Stylish & Amazing Appearance

Water-Resistant Wax Coating

Each strand of wood is treated to improve protection against varying conditions.

Resin-Saturated Overlay

Prevents moisture intrusion & provides durable base for quality paint adhesion.

Fungus Free Technology

Used safely in paint and carpets, borates are added to stop rot forming.

Toughening Glues

Advanced binders improve core strength & help minimise risk of impact damage.
