## Desirable & Unrivalled Benefits

### Premium Appearance

Instantly create a charming board & batten effect inside and out

### Insect & Rodent Resistant

Relax in style and ensure pests always stay away

### Long-Lasting Guarantee

SmartGuard manufacturing process gives guaranteed protection

### Handles All Weathers

Tested to withstand snow, hail, freeze and thaw, rain & high humidity

### Decay & Rot Resistant

Rigorous fungal decay tests conducted in temperatures above 70C

### Impact Resistant

Far tougher than vinyl, traditional wood panel or cement fibre sidings

## Premium Real Wood Texture Style Finish

## Low Environmental Impact

- Responsibly made with a renewable-resourced wood
- Ethically sourced from well-managed forests

# Garden Rooms With Unique Timber Technology

Designed in the US by Louisiana-Pacific Corporation – one of the biggest global producers of Orientated Strand Boards (OSB), LP SmartSide™ is a stylish engineered wood panel that looks and performs better than timber.

## Hard Wearing & Amazing Finish

### Water-Resistant Wax Coating

Each strand of wood is treated to improve protection against every extreme.

### Resin-Saturated Overlay

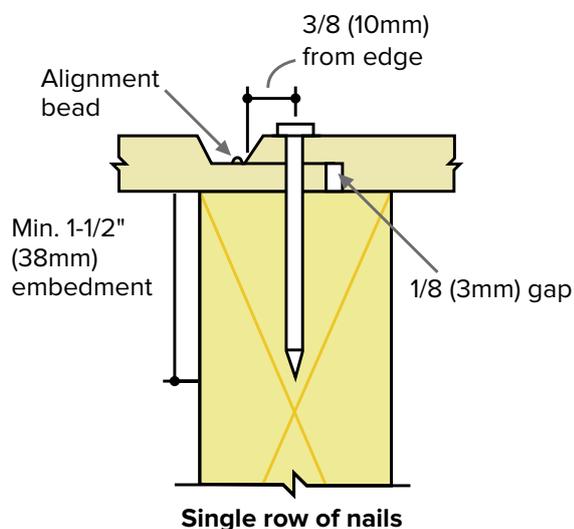

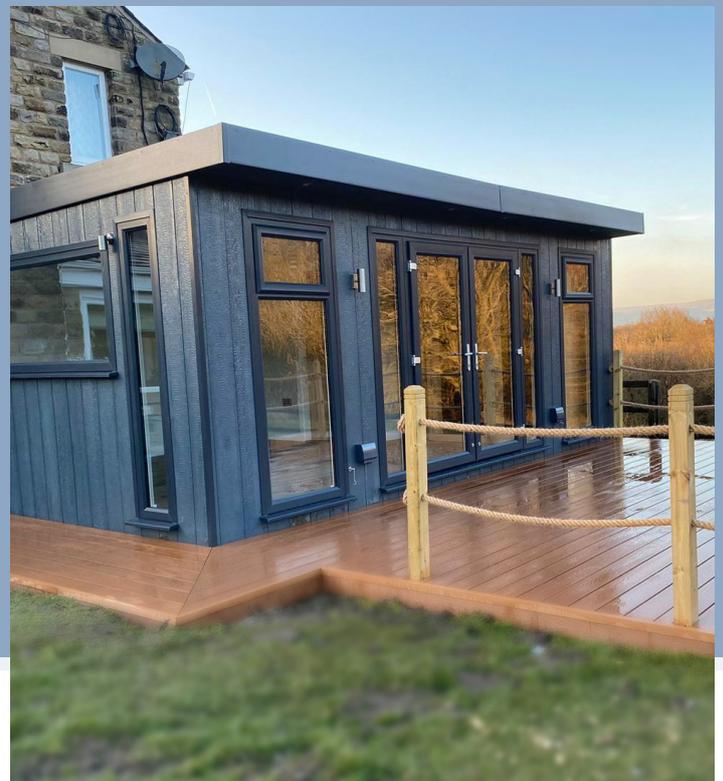

Prevents moisture intrusion & provides durable base for quality paint adhesion.

### Fungus Free Technology

Used safely in paint and carpets, borates are added to stop rot forming for decades.

### Toughening Glues

Advanced binders improve core strength & help minimise risk of impact damage.
